<ul style="list-style-type: none">• 4th May 2014 at 02UTC (47 Mb)	<ul style="list-style-type: none">• Review of topics for future Regional Focus Group meetings

Certificates of Participation for upcoming Training Courses

- Have considered issuing Certificates of Participation for Science Week (28 July – 1 August 2014) and for the Advanced Satellite Meteorology course (11th – 29th August) with Roger Deslandes.
- Roger agrees that this is possible. However, there is a challenge to determine who participated in the Webinar sessions. This is a particular problem for multiple attendees using one login identity.
- Roro Purwanti will now tell you the process by which BMKG issue Certificates of Participation.
