WMO Global Campus

WMO ETR

Education and Training needs are increasing

How do we aim to meet this need ?

A WMO Global Campus: *a framework, way of working together better ?*

What is a Global Campus? In a Nutshell

A network of institutions coordinating and collaborating to offer quality-assured education and training opportunities for WMO members.

The Global Campus will incorporate new approaches to the development and delivery of training offerings.

What is a Global Campus?

-it's not a physical building or physical campus!
- But, it is a way of enhancing and elaborating how we work, communicate and collaborate to meet WMO members training needs
- Some good networks already exist, so how do we build on this and learn from good practice to enhance and grow training offerings to meet this increasing demand

WMO Global Campus – some benefits

- Better access to training resources
- Cost and delivery efficiency
 - increased distance learning and expanding face-to-face opportunities to meet demands
- Encouraging new partnerships among current WMO providers & new partners
- Appropriate quality standards to ensure training offerings meet proper learning outcomes
- Transferability of awards, credits etc across institutions
- Improved links to training resources
- Sustainability through expanded, diversified and more robust network

Contributors to the Global Campus

- WMO Regional Training Centres are the foundation for the Global Campus
- NMHS training centres and other training institutions
- Universities and colleges
- Other appropriate training providers that offer quality training to meet needs of WMO members
- International organisations with training offerings
- International funding institutions

WMO Global Campus – next steps

- Aileen seconded to assist with a feasibility study of the WMO Global Campus
- Steering group to be formed very soon
- Feasibility study to address issues raised by the EC Panel including:
 - Governance,
 - Quality assurance mechanisms,
 - Creation of a WMO ETR portal,
 - Sustainability,
 - Priority focus areas
 - Creation of a road map for Global Campus for Cg-17

Thank you
