

WMO-CGMS Virtual Laboratory for Education and Training in Satellite Meteorology

#### **ACTIVITY REPORT**

Period: September 2012 to December 2013

Satellite Operator/Agency: EUMETSAT

### GENERAL INFORMATION ABOUT THE SUPPORT OFFERED TO VLAB CENTRE(S) OF EXCELLENCE (CoE) AND THE DEVELOPMENT OF VLAB TRAINING ACTIVITIES

1) Which VLab CoE(s) is(are) supported by this Satellite Operator/Agency?

Morocco, Niger, Kenya, South Africa, Oman

2) What were the major achievements in supporting VLab CoE(s) during this reporting period?

Implementation of the online course with Niger and Kenya, implementation of a marine course with South Africa, and new RFGs from Morocco and Oman.

3) What were the main difficulties in supporting VLab CoE(s) during this reporting period?

Understanding the user needs and designing courses based on need.

4) Is any kind of Learning Management System (e.g. Moodle, Blackboard, etc) used by this Satellite Operator/Agency to conduce training activities? If so, can it be shared with the CoEs you support?

Moodle, Yes it is shared. Oman use their own Moodle.

5) Is any kind of Online Conferencing System (e.g. Saba Centra, Blackboard Collaborate, GoToWebinar, etc) used by this Satellite Operator/Agency to conduce training activities? If so, can it be shared with the CoEs you support?

Saba – yes it is shared and used extensively.

- 6) Can you suggest ways for the VLab (including CoEs, Supporting Satellite Agencies, Partner Programmes, WMO Space Programme, VLab Co-chairs and TSO) to provide better support to the training activities of this Satellite Operator/Agency?
- 7) Does this Satellite Operator/Agency has a website dedicated to explain its involvement and support to VLab (as indicated in the document "Expectations from Satellite Operators)? If so, please provide URL.

Yes

http://www.eumetsat.int/website/home/Data/Training/VirtualLaboratory/index.html?lang=EN

8) Do you maintain regular contact with the other VLab Supporting Satellite Operators/Agencies to discuss data access and format issues as well as training needs to improve the use of satellite data and products? Can you suggest ways of improving this contact?

Data and formats are discussed through wider organisational collaboration. Some discussion at CGMS, no other discussion on coordinated support to Africa and Middle East. Marine coordinated with NOAA. Training is part of NOAA-EUMETSAT agreement/

### 9) Please use the table below to list any training materials you may have developed over this reporting period:

Title of training material	Type of resource (e.g. text book, video, recorded presentation, Moodle course, webcast, PowerPoint slides)	Availability of resource (e.g. open educational resource <sup>1</sup> , institutional use only)	Submitted to ESRC (Yes/No)
ASMET materials	Modules	Open	Available in COMET
Dust - Africa	Simulation	Open	Email EUM
Fog – Middle East	Simulation	Open	Soon on website
Modules – EUMeTrain		Open	On website
Image and training resources	Case studies / images / lecture slides	Open	On website

# 10) Is this Satellite Operator/Agency working closely together with the supported CoE(s) in VLab training activities? Can you suggest ways to improve this collaboration?

Yes – undertaking an evaluation / impact survey to guide development. Moving the ownership of the course from EUMTSAT owned to more partnership.

## 11) Please use this space for additional remarks you may wish to make relating to the delivery of training by the Satellite Operator/Agency and the sponsored CoE(s).

We are aligning our processes with the WMO guidelines on training and the outcomes of our courses with WMO-1083 and the competencies as they are published.

<sup>&</sup>lt;sup>1 1</sup> Please also indicate if the Creative Commons License was applied to the resource.

12) The next page presents a table containing all training events entered by this Satellite Operator/Agency in the VLab Online Calendar of Events during this reporting period. Please complete the table with information about the number of trainees and Country of origin of trainees that attended the events. If additional events had been conducted as part of your VLab activities, that for some reason were not submitted to the Online Calendar of Events, please add them to the table.

Date	Title	Location	WMO region	Host	Туре	Language	Number of trainees	Country of origin of trainees
