It was quite interesting exercise
05/31/2017 09:21:19 AM from DINESH RASE to All Participants:
mic system is not working at this end
05/31/2017 09:23:50 AM from Bodo Zeschke to All Participants:
It depends on the session. If it is really about an engaging and exciting topic then I will not multitask. However if the boss has given me lots of work and I HAVE to attend an online session then I may be tempted to multitask :-o
05/31/2017 09:26:51 AM from ratih to All Participants:
sorry for the misclick
05/31/2017 09:27:44 AM from Luciane Veeck to All Participants:

Harni - Sorry you are having audio problems. Roro's audio is coming clear and loud now. If you still have problems hearing her it could be related to the speed of your connection or also your headset. You can try to run an audio check by clicking the top menu "Audio"

05/31/2017 09:28:08 AM from Bodo Zeschke to All Participants:

Important to be a bit playful also. A "doodling" slide is important to relax the attendees...

05/31/2017 09:28:38 AM from Luciane Veeck to All Participants:

Good suggestion Bodo!

05/31/2017 09:28:59 AM from Tya to All Participants:

scenario 2 is challenging, but I guess 3rd scenario will be more challenging

05/31/2017 09:29:38 AM from Bodo Zeschke to All Participants:

Also keep in mind that it is not always possible to please all of the audience. Some are quick to take up the information some need more time.

05/31/2017 09:29:56 AM from Luciane Veeck to All Participants:

I was only in scenario 3 once. It was challenging! But planning ahead helped a lot

05/31/2017 09:30:14 AM from Tya to All Participants:

Thanks Bodo for reminding us not to please all...

05/31/2017 09:30:35 AM from DINESH RASE to All Participants:

planning a set of interesting open questions to answer

05/31/2017 09:31:02 AM from DINESH RASE to All Participants:

build virtual presence

05/31/2017 09:31:15 AM from Bodo Zeschke to All Participants:

The important factor is to induce "the greatest possible happiness" amongst the audience

05/31/2017 09:31:19 AM from DINESH RASE to All Participants:

others will follow

05/31/2017 09:32:03 AM from DINESH RASE to All Participants:

I agree with Bodo

05/31/2017 09:32:32 AM from Tya to All Participants:

I see...thanks Bodo and Dinesh

05/31/2017 09:33:22 AM from Bodo Zeschke to All Participants:

Before I prepare a presentation I always imagine that I am a member of the audience. I make sure I do not put too many slides in my presentation. I do not put too much text on my slides. Instead lots of amazing satellite images and animations

05/31/2017 09:34:46 AM from Bodo Zeschke to All Participants:

However the chat does identify the person. We find annotation best for anonymity - attendees more likely to be interactive and "brainstorm"

05/31/2017 09:35:03 AM from DINESH RASE to All Participants:

how to engage the audience is the skill to acquire

05/31/2017	09:35:17 AM	from DINESH RASE to All Participants:
		for trainers
05/31/2017	09:36:09 AM	from Patrick to All Participants:
		Looks great to me.
05/31/2017	09:36:22 AM	from Bodo Zeschke to All Participants:
		videos can be a problem to transmit across limited bandwidths. Therefore post the animation on the web page beforehand and ask attendees to download beforehand so that they can play it on their computer during the session
05/31/2017	09:36:35 AM	from DINESH RASE to All Participants:
		simply great
05/31/2017	09:36:37 AM	from Bodo Zeschke to All Participants:
		I can see your video well Vesa
05/31/2017	09:36:58 AM	from Tya to All Participants:
		I can see your video well Vesa
05/31/2017	09:37:36 AM	from DINESH RASE to All Participants:
		colored means cold cloud top temperature?
05/31/2017	09:40:30 AM	from Bodo Zeschke to All Participants:
		Stormtop exercise is a good example how important anonymity is for "brainstorming" and creative thinking
05/31/2017	09:41:07 AM	from Bodo Zeschke to All Participants:
		Yes
05/31/2017	09:41:34 AM	from ratih to All Participants:
		please tell us what discovery learning means?
05/31/2017	09:41:48 AM	from DINESH RASE to All Participants:
		we agree
05/31/2017	09:42:10 AM	from Bodo Zeschke to All Participants:
		Look at satellite data every day. You are bound to find amazing examples. Keep these for the training and then share your sense of wonder with the audience - the "discovery" experience
05/31/2017	09:42:40 AM	from DINESH RASE to All Participants:
		simple to adopt
05/31/2017	09:42:59 AM	from DINESH RASE to All Participants:
		for training
05/31/2017	09:43:31 AM	from Akihiro SHIMIZU to All Participants:
		I agree with Bodo-san.
05/31/2017	09:43:57 AM	from Bodo Zeschke to All Panelists:
		I have taken screenshots of your happy faces Roro Lu and Vesa during the introduction. Will post these to you after...
05/31/2017	09:46:49 AM	from ratih to All Participants:
		thanks you ms roro
05/31/2017	09:48:34 AM	from Bodo Zeschke to All Participants:
		Put photos into slide leave a space underneath for the attendees to sign their names. First ask the attendees if it is ok to show their photos online though

05/31/2017 09:49:50 AM	from Bodo Zeschke to All Participants:
More than 20 attendees per Regional Focus Group meeting makes me very happy. A good attendee turnout to the meeting now I think	
05/31/2017 09:50:27 AM	from DINESH RASE to All Participants:
yes	
05/31/2017 09:50:29 AM	from Bodo Zeschke to All Participants:
It can be distracting having the presenter there all the time. Variety is best	
05/31/2017 09:51:34 AM	from Patrick to All Participants:
Lost your audio	
05/31/2017 09:51:39 AM	from Bodo Zeschke to All Participants:
voice just dropped out Lu	
05/31/2017 09:51:52 AM	from Joe Courtney to All Participants:
I like having the video to start to see them with and then just the content	
05/31/2017 09:51:53 AM	from Patrick to All Participants:
yes	
05/31/2017 09:51:55 AM	from Bodo Zeschke to All Participants:
Yes	
05/31/2017 09:52:37 AM	from Bodo Zeschke to All Participants:
The TED talks are a good example of having a presenter directly on stage	
05/31/2017 09:53:57 AM	from Marinés to All Participants:
I enjoy the voice very much it transmits a lot. It adds to online learning	
05/31/2017 09:54:12 AM	from Tya to All Participants:
yes it will give distraction when the presenter is keep on streaming the whole session	
05/31/2017 09:54:28 AM	from DINESH RASE to All Participants:
i agree with tya	
05/31/2017 09:54:35 AM	from Patrick to All Participants:
I am concerned with the idea of teacher as entertainer. I feel the teacher should be a facilitator more.	
05/31/2017 09:54:43 AM	from Bodo Zeschke to All Participants:
Also cannot give beautiful satellite imagery or animations centre stage if you are hogging "video space"	
05/31/2017 09:54:44 AM	from DINESH RASE to All Participants:
i agree Tya	
05/31/2017 09:55:43 AM	from Patrick to All Participants:
Great point. Use the camera for what it is good for.	
05/31/2017 09:56:09 AM	from Bodo Zeschke to All Participants:
I think it is very important that the teacher is both a facilitator and an entertainer (at times). Especially if the teacher is passionate about the subject that he teaches. You can really kindle inspiration in your audience that way.	

05/31/2017 09:58:21 AM	from Bodo Zeschke to All Participants:
You were attentive to the chat messages. there was a feeling that the comments were being "heard". Sometimes that is a challenge if I am leading a Regional Focus Group by myself.	
05/31/2017 09:58:35 AM	from Patrick to All Participants:
Mentioning the chat messages were read.	
05/31/2017 09:58:49 AM	from Joe Courtney to All Participants:
It is hard to deliver and keep responding the chat box	
05/31/2017 09:58:58 AM	from Patrick to All Participants:
Might be important to have a partner to help you read messages.	
05/31/2017 09:59:15 AM	from Marinés to All Participants:
great to read a variety of opinions	
05/31/2017 09:59:36 AM	from Marinés to All Participants:
It is a a sort of multitasking	
05/31/2017 09:59:50 AM	from Akihiro SHIMIZU to All Participants:
Sometimes it will take time to express m own idea by chat.	
05/31/2017 10:00:01 AM	from Patrick to All Participants:
If people are shy to use you might need to use it yourself to make them more comfortable.	
05/31/2017 10:00:04 AM	from Bodo Zeschke to All Participants:
Sometimes if it nice to mention a person by name when they contribute to the chatbox. Of course that depends on how well you know the person	
05/31/2017 10:00:28 AM	from Tya to All Participants:
chats can be used to learn if there is any problem that the audience face during the session	
05/31/2017 10:00:48 AM	from Rista Hernandi to All Participants:
Yes it is quite hard to type in chat box while keep reading the messages	
05/31/2017 10:01:57 AM	from Bodo Zeschke to All Participants:
The other issue we have is when we have a group of people sharing a terminal. Then it may be difficult to get an individual person to respond as they may be scared to embarrass themselves. I normally ask the group to come to a consensus and then present the group opinion as an answer to the question.	
05/31/2017 10:01:57 AM	from Tya to All Participants:
can chats be printed?	
05/31/2017 10:03:00 AM	from Tya to All Participants:
good to know that. thank you	
05/31/2017 10:03:23 AM	from Patrick to All Participants:
More polling. I always forget to do that.	
05/31/2017 10:03:24 AM	from Joe Courtney to All Participants:
look at using polls	
05/31/2017 10:03:31 AM	from Marinés to All Participants:
challenging discovery questions.	

05/31/2017	10:03:53 AM	from DINESH RASE to All Participants:
		connectivity is important for points discussed
05/31/2017	10:04:01 AM	from Marinés to All Participants:
		try to have a friendly atmosphere like you did today! Thanks
05/31/2017	10:04:13 AM	from Tya to All Participants:
		I would like to learn to adopt the polling
05/31/2017	10:04:23 AM	from Akihiro SHIMIZU to All Participants:
		The arrow indicator with the participant's name and poll function are very interesting.
05/31/2017	10:04:24 AM	from Bodo Zeschke to All Participants:
		Incorporate a really intense short interactive session during my RFG meetings in future
05/31/2017	10:04:49 AM	from Patrick to All Participants:
		I do not see the CALMet Commons post yet.
05/31/2017	10:04:51 AM	from Bodo Zeschke to All Participants:
		...the session would be 5-10 minutes long
05/31/2017	10:05:04 AM	from Joe Courtney to All Participants:
		I like the idea of ongoing connections and having regular engagement like a series for continuity. Thanks
05/31/2017	10:05:42 AM	from Bodo Zeschke to All Participants:
		I like to forward the answers to any questions that we could not answer during our RFG meetings to each attendee afterwards...
05/31/2017	10:05:45 AM	from Tya to All Participants:
		I would be expecting the summary Lu :) thanks
05/31/2017	10:06:30 AM	from Patrick to All Participants:
		Excellent session! I want to share this with my WMO colleagues to show them how they can use Webinars.
05/31/2017	10:06:37 AM	from mamie to All Participants:
		i would like to learn the interactive sample of video and polling..it's interesting. thanks
05/31/2017	10:06:54 AM	from Patrick to All Participants:
		I agree with Bodo. Short is good. Especially if they are recorded.
05/31/2017	10:07:03 AM	from Bodo Zeschke to All Participants:
		this one hour passed very quickly and enjoyably for me
05/31/2017	10:07:42 AM	from Tya to All Participants:
		I am echoing Bodo. I found this session very interesting and enjoyable
05/31/2017	10:08:10 AM	from Bodo Zeschke to All Participants:

05/31/2017	10:08:45 AM	from DINESH RASE to All Participants:
		first experience
05/31/2017	10:08:55 AM	from Marinés to All Participants:

			maybe get participants ready beforehand (give a question) to discuss on the session.
05/31/2017	10:09:04 AM	from Tya to All Participants:
