

WMO REGIONAL TRAINING CENTER NANJING

Scale

Number of Trainees

Management Courses: Meteorological Management, Meteorological Information Service, Climate Change and Climate Information Services, Meteorological Disaster Management and Emergency Service, Multi-hazard Early Warning

Technical Courses: Agrometeorology, Weather Forecast, Radar Meteorology, Satellite Meteorology, Weather Modification, Tropical Cyclone Forecast, Short-term Climate Prediction, Aeronautical Meteorological Observation and Forecast, Use and maintenance of Meteorological Instruments, Application and Interpretation of Numerical Weather Prediction Products

MSc. Program: Meteorology

Training Facilities

Training Quality

Courses in 2015

1. Training Course for Aeronautical Meteorological Observers from Macao, China
2. Training Course on Radar Meteorology for Developing Countries
3. International Training Course on Numerical Weather Prediction
4. Training Seminar on Climate Change and Climate Information Service for Developing Countries
5. Training Seminar on Management for Meteorological Officials from the Asia-Pacific Countries
6. International Training Course on Use of Meteorological Instruments
7. Seminar on Meteorological Disaster Management and Weather Information Service for Developing Countries
8. International Training Course on Agro-meteorology
9. Applied Meteorology Course for Forecasters from Macao, China
10. Training Seminar on Meteorological and Earthquake Forecast, Mitigation and Relief for Developing Countries
11. International Training Course on Instrument Maintenance and Calibration
12. Seminar on Disaster Prevention Experiences and Policy for Afghanistan
13. International Training Workshop on Tropical Cyclone Forecasting and Warnings

2016 Courses & Seminars

- Training Course on Surface Meteorological Observation, Macao, China
- 2016 Seminar on Climate Change and Climate Information Service for Developing Countries
- 2016 Seminar on Earthquake and Disaster Prevention and Mitigation for Armenia
- 2016 Training Course on the Use and Maintenance of Meteorological Instruments for Developing Countries
- 2016 Seminar on Meteorological Disaster Mitigation and Rescue for Developing Countries
- 2016 Seminar on Emergency Rescue of Earthquake Disaster for Developing Countries
- 2016 International Training Course on Agro-meteorology
- 2016 Training Course on Technological Transfer in Coping with Climate Change for Developing Countries
- 2016 Training Course on Meteorology for Uganda
- 2016 International Training Course on Radar Meteorology
- 2016 International Training Course on Tropical Cyclone
- 2016 International Training Course on Instrument Maintenance and Calibration

Future Endeavors

1. Putting efforts on meeting the education and training requirements of meteorological and hydrological services
2. Placing great emphasis on hot issues
3. Strengthening the training on innovative and high technology applied in meteorology & hydrology
4. Taking advantage of the key disciplines to enhance the targeted international training
5. Focusing on quality assurance
6. Developing practical bases
7. Organizing diversified extra-curriculum activities
