

EUMETSAT's Drought & Vegetation Data Cube

A prototype

Information Day: 11 May 2021

Christine Träger-Chatterjee

Draft Agenda D&V Cube Info Day

09:30 – 09:45: Welcome & Introduction

Background – why a cube?

What is in the cube?

Where to find information about the cube?

09:45 – 10:30: The Drought & Vegetation Data Cube: Introduction to the variables

11:00 – 11:15: COFFEE BREAK

11:15 – 11:30: Access to the Data Cube and CM SAF R Toolbox demonstration

11:45 – 12:15: Climatological drought monitoring in Switzerland using SAF satellite products

12:15 – 12:45: What now? – The Exploration Phase!

12:45 – 13:00: Q & A and Feedback

- Questions on today's presentations:
[slido.com](https://www.slido.com), code: *dvcube*
- D&V Cube Page (moodle course):
<https://training.eumetsat.int/course/view.php?id=399#section-2>
- Have you worked with satellite data before?

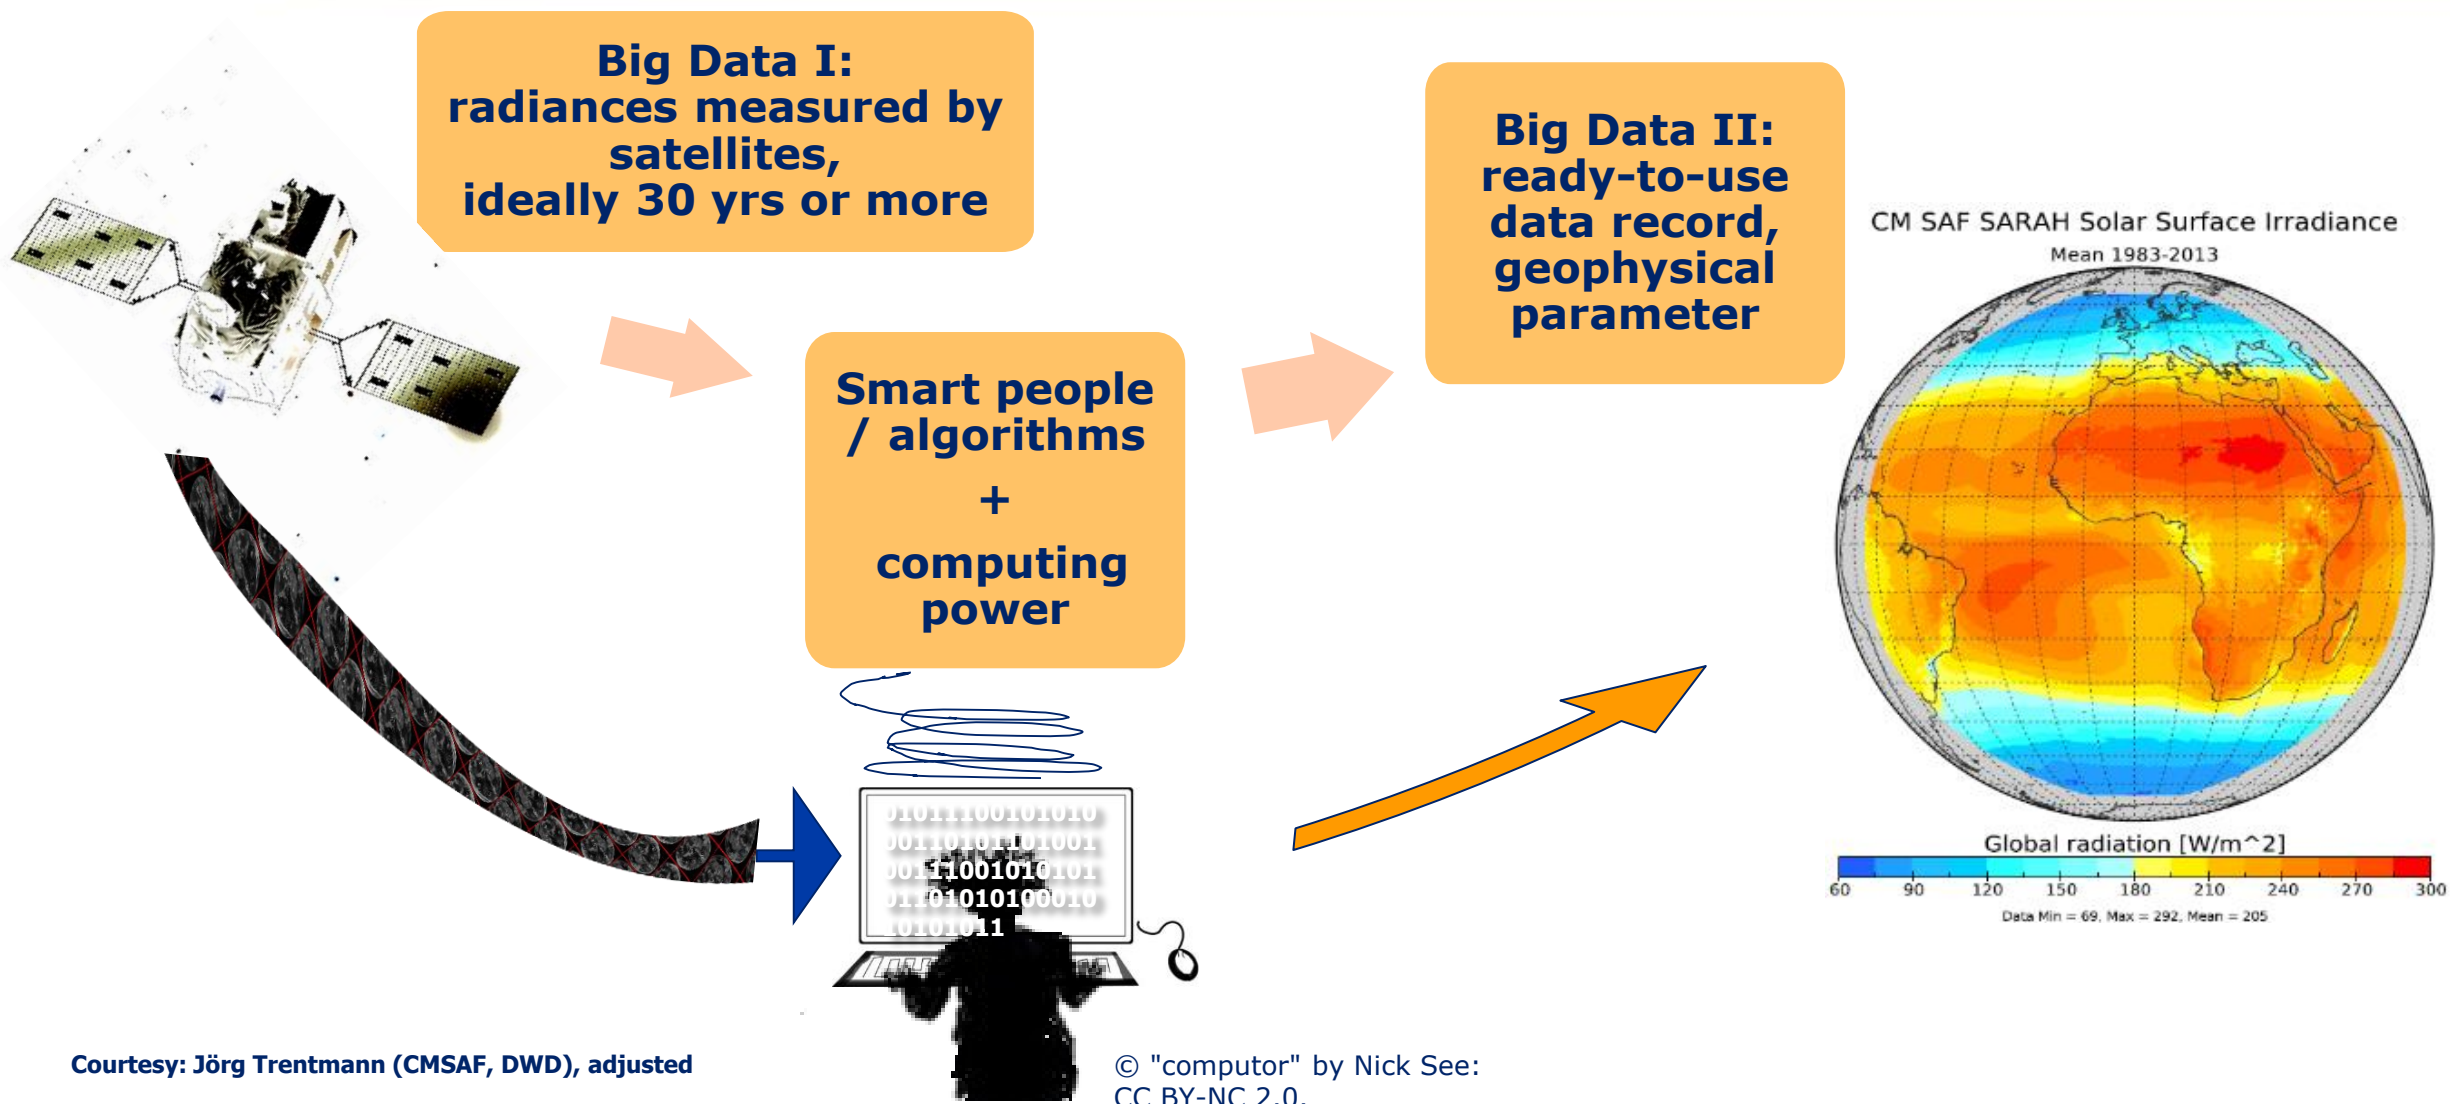

EUMETSAT is an intergovernmental Organization

Tasks

- Develop, maintain, exploit European systems of meteorological satellites, taking into account as far as possible the recommendations
- Contribute to operational climate monitoring and the detection of global climatic changes.

Climate Data Satellite Retrieval System

Satellite Application Facilities

Satellite Application Facilities

- EUMETSAT has a network of different Satellite Application Facilities (SAFs)
- SAFs are dedicated centers of excellence for processing satellite data
 - research, development and operational activities
 - each SAF focusses on specific user communities or application areas
- Each SAF is a consortium of entities from EUMETSAT member states

D&V Cube Data Providers

Satellite Application Facilities

- EUMETSAT has a network of different Satellite Application Facilities (SAFs)
- SAFs are dedicated centers of excellence for processing satellite data
 - research, development and operational activities
 - each SAF focusses on specific user communities or application areas
- Each SAF is a consortium of entities from EUMETSAT member states

Global Precipitation Climatology Centre

European Centre for Medium Range Weather Forecasting

The Drought & Vegetation Cube

The issue

- Many great EO data records exist
- Many providers
- Many ways of accessing data
- Many data formats

➔ Barriers of access / usage

The **prototype** D&V Cube

- A data cube containing variables for drought and vegetation monitoring
- All files in netCDF4, cf-compliant
- Using a common data model
 - regular lat – lon grid
 - common metadata definitions
- This is a prototype – **learn about user needs!!**

The idea

- Bringing data closer to the user
- Analysis ready data
- Data Cubes

Your feedback!!

- Are cubes useful for you?
- Is cf-compliant netCDF and appropriate format?
- Is the common data model appropriate?
- Is the provision appropriate?
- What would be best for your work?
- How can we serve you better?
-

The Drought & Vegetation Cube

Variable	Datasource	Temporal Coverage	Spatial Resolution	Temporal Resolution
Global Radiation	Satellite	Jan 1983 – Dec 2020	0.05°	Daily & monthly
Direct normal Solar Radiation	Satellite	Jan 1983 – Dec 2020	0.05°	Daily & monthly
Sunshine Duration	Satellite	Jan 1983 – Dec 2020	0.05°	Daily & monthly
Land Surface Temperature	Satellite	Jan 2004 – Dec 2020	0.05°	Hourly
Reference Evapotranspiration	Satellite	Jan 2004 – Dec 2020	0.05°	Daily
NDVI	Satellite	Mar 2007 – Dec 2020	0.01°	10-daily
Fractional Vegetation Cover	Satellite	Jan 2004 – Dec 2020	0.05°	Daily
Leaf Area Index	Satellite	Jan 2004 – Dec 2020	0.05°	Daily
Fraction of absorbed photosynthetically active radiation	Satellite	Jan 2004 – Dec 2020	0.05°	Daily
Soil Wetness Index (root zone)	Satellite	Jan 1992 – Dec 2020	0.1°	Daily
Precipitation	In situ	Jan 1982 – Dec 2020	1°	Monthly
T2m	Re-analysis	Jan 1979 – Oct 2020	0.1°	Monthly

Spatial Coverage:	Europe
Grid:	Regular Lat / Lon
Data Format:	CF compliant netCDF4

Access to the data cube:

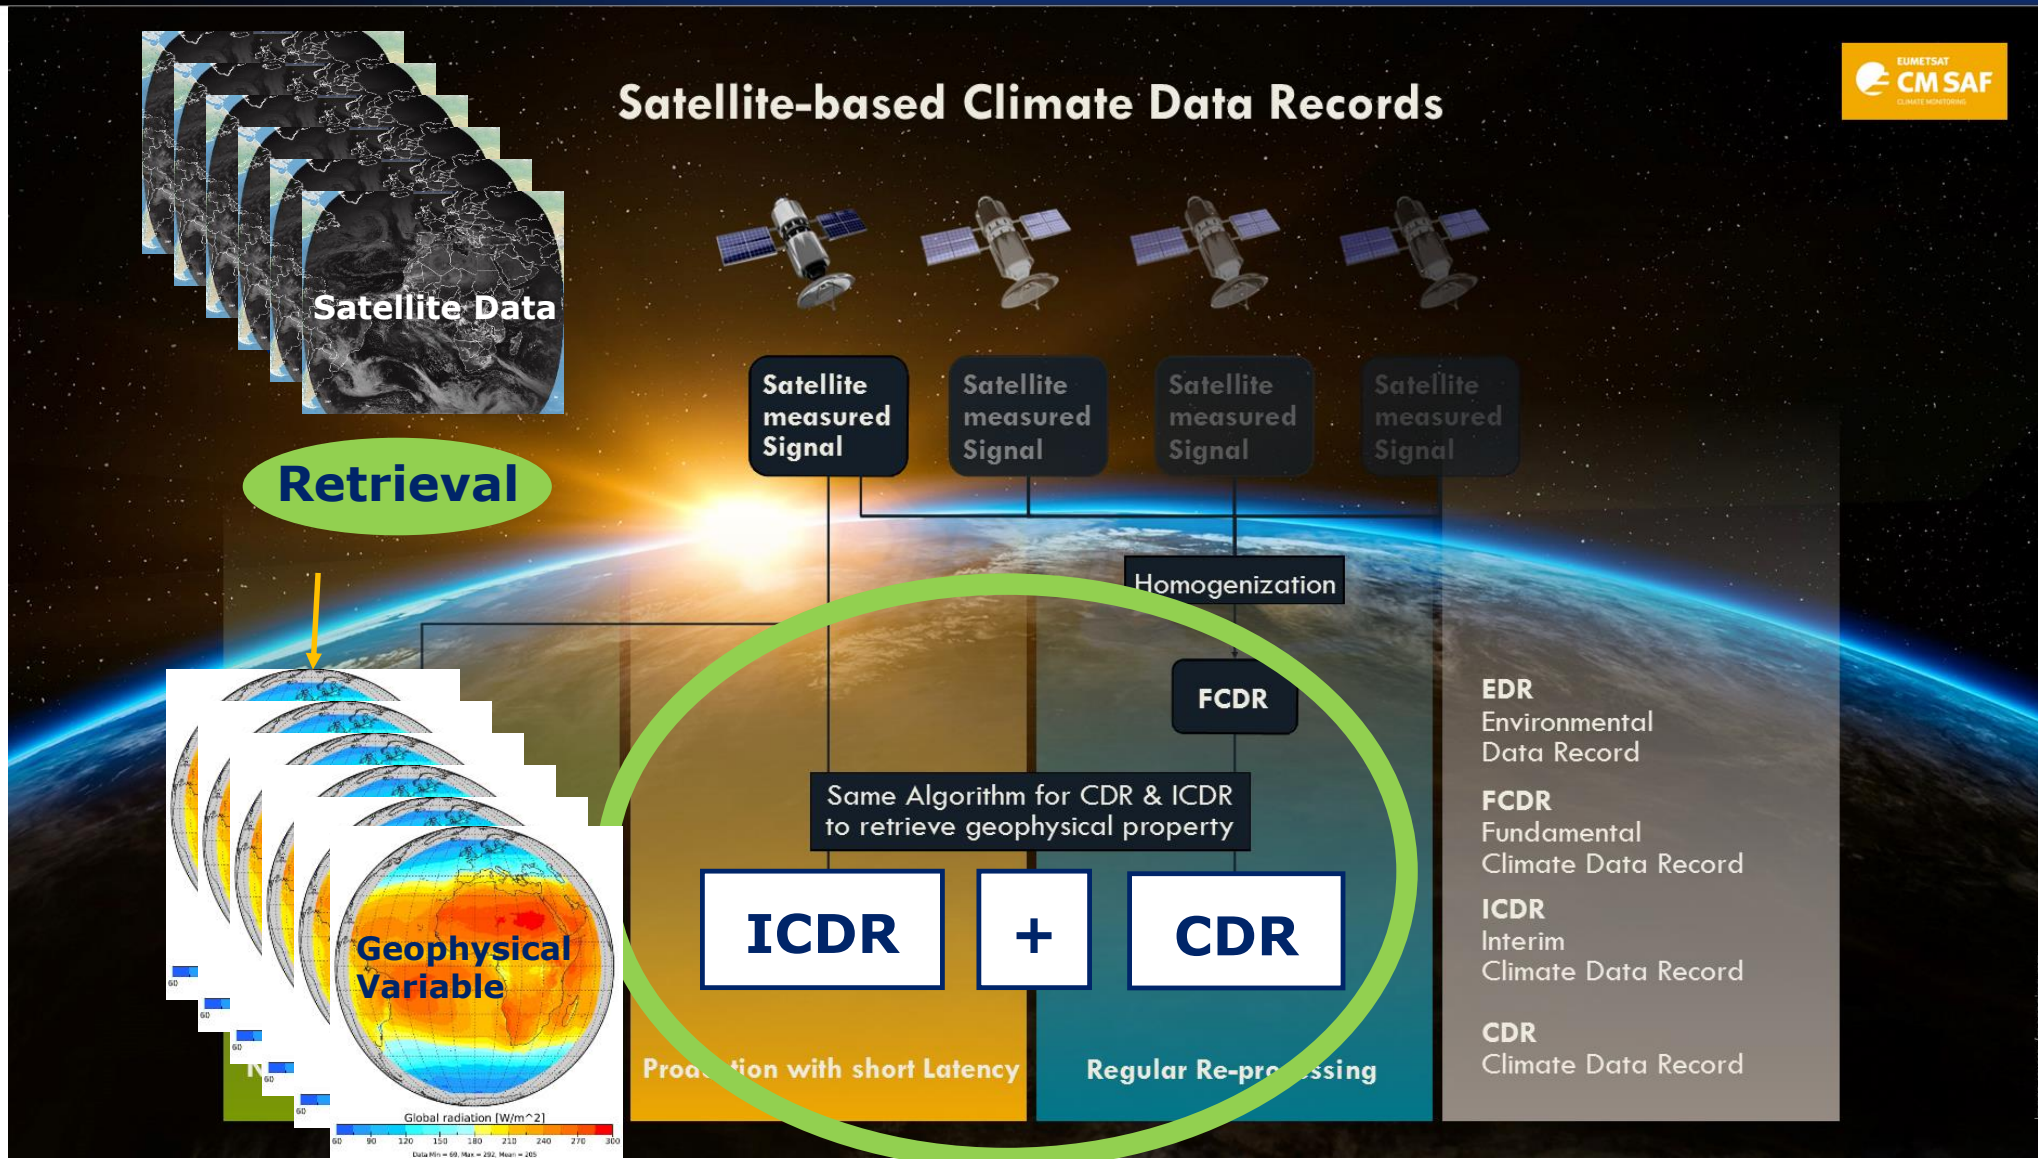

➔ Enrol to the D&V Cube Exploration Phase:
<https://training.eumetsat.int/course/view.php?id=399>

➔ Follow the link under: “Access to the Data Cube”

Information on the Drought & Vegetation Cube

- D&V Cube Page (moodle course)
 - Information on the Variables
 - Description of the methods applied to create the cube

training.eumetsat.int

A screenshot of the Moodle course page for 'Land Applications'. The page has a navigation bar with 'Home', 'Courses', 'Events', 'Groups', and 'Centres of Excellence'. The 'Administration' sidebar on the left lists various actions like 'Manage this category', 'Edit this category', 'Add a subcategory', 'Assign roles', 'Permissions', 'Check permissions', 'Cohorts', 'Filters', 'Restore course', and 'Learning plan templates'. The main content area shows 'Course categories: COURSES / Land Applications' and 'Land Applications [LAND]'. A red circle highlights the 'Data Cube Information page' link. Below this, there is a table of variables and a section titled 'What is the Drought & Vegetation Data Cube?'. The URL <https://training.eumetsat.int/course/view.php?id=399> is also visible.

Variable	Outlook	Temporal Coverage	Spatial Resolution	Temporal Resolution
Global Radiation	Satellite	Jan 1983 - Dec 2020	6.05°	Daily & monthly
Direct normal Solar Radiation	Satellite	Jan 1983 - Dec 2020	6.05°	Daily & monthly
