

# Satellite Data Holder

## NAME

Anna Schmidt

## ROLE AND EMPLOYER

Database manager at EUMETSAT

## COUNTRY OF RESIDENCE

Germany

## CHARACTERISTICS

She knows how to disseminate data to data users, via Internet and satellite networks of communication. She can also support data users to analyse data, and understand possible anomalies. She cannot make a weather forecast though. After an extreme weather event, she can gather the experience of data users and suggest improvements to the products that are being sent to the users in order to make them more useful.

## WORK ENVIRONMENT AND COLLEAGUES

In front of a screen, with highly educated colleagues.

## OPINION ON CLIMATE CHANGE

It is a crucial challenge that needs to be tackled more strongly by politicians. She cycles to work every morning and eats vegetarian.
